Pursuant to 28 U.S.C. 1746 I, ROBERTO C. GRILLO declare under the penalty of perjury the following is true and correct.

I, ROBERTO C. GRILLO, SBI # 609227-C, Inmate # 1195482 am incarcerated at New Jersey State Prison I am housed on unit W-2L cell # 164

On April 14, 2021 while on 2-Left I overheard Tremayne Durham yell out to O.F.C. L. Jovanovic and O.F.C. J. Akturk for medical assistance because he was having serious back pain.

O.F.C. L. Jovanovic and O.F.C. J. Akturk told Durham to put it on the Kiosk.

Date: June 17, 2021

Exhibit D-4

DECLARATION OF: EWART M. GUILLETTE

PURSUANT TO 28 U.S.C. § 1746 I, EWART M. GUILLETTE declare the following is true and correct under penalty of law.

I, EWART M. GUILLETTE am incarcerated at New Jersey State Prison housed on 21FT. Cell # 118.

① On April 14th, 2021 while on 21FT I heard Tremayne Durham screaming out to O.F.C. L. Jovanovic that he was having serious back pain. O.F.C. L. Jovanovic started laughing and told him to put it on the 1108th.

② A while later the same day I heard Tremayne Durham scream to O.F.C. J. Arthur about having serious back pain, she laughed out loud and told him to put it on the 1108th.

SBI#: OS01613467

Ordering Provider: cmsnwa3

This inmate was evaluated at the clinic on January 3, 2018. He complained of low back pain which has been going on for many years. There are no complaints of leg pains or paresthesias.

On examination, I find no neurological impairment. There is some limited range of motion in the lumbar spine in all directions secondary to discomfort.

I personally reviewed an MRI scan of his lumbar spine and see lateral facet hypertrophy which is causing some impingement of the lumbar roots.

It is my impression that this inmate has lumbar stenosis.

My recommendation is use of nonsteroidal anti-inflammatories. He should avoid impact aerobics. Stretching exercises and flexion will be of benefit. This all may be done at physical therapy or on his own. If his symptoms do not improve, he would be a good candidate for lumbar epidural steroid injections.

5-22-20 moved to 7up 10 tier, quarantine their were no handrails in the shower for inmates with disabilities. As a result on 5-31-20 I fell in the shower injuring myself.

Communications / Case Actions

7/7/2020 3:48:15 PM : (Amy Emrich) wrote

If you required assistance with the shower, you should have alerted a custody staff member. Given that your regularly assigned housing unit does not have an ADA regulation shower, there was no way for the staff to know you had any need for handrails.

While I was on 2 left I lost sleep on various days from April 2020 to March 2021 due to large metal fans on the wall and on the floor that made excessive noise and was on perpetually even in the Fall and winter. The large fans were adjacent to the cell I was in 26. The fans were used to drown out inmates talking and to annoy. Even though I complained about it nothing was done, this was done by c.o.s L. Jovanovic, Z. Goodwin, J. Esquilan, J. Akturk.

Also while on 2 left from April 2020 to about March I have complained about ants, roaches, waterbugs, etc in my cell to c.o.'s L. Jovanovic, J. Akturk, Z. Goodwin. Due to the vermin infestation I lost sleep with insects crawling on me at night. Nothing was done until insects were visible at front of cell about to come into the hallway.

Communications / Case Actions

4/29/2021 9:30:38 AM : (Michael Crawford) wrote

Work orders were submitted during that time for the fans and they are utilized to cool off the unit and circulate air not to annoy one person. Unit extermination is routinely scheduled for the institution

This is unacceptable I reiterate NJSP21015278 I did lose sleep on numerous days even when the large metal fans were operable by them being on caused excessive noise. They were on on extremely cold days and during the cold seasons. They were used to annoy and to drown out other noise such as inmates talking on unit, this was done regularly to me and others. When asked if it could be turned off threats and disrespectful comments were made by officers named in the previous inquiry.

Vermin, insects were all over my cell and in my property this caused me to lose sleep and stress. I complained to c.o.'s but the same above treatment was done to me as mentioned above.

Communications / Case Actions

5/21/2021 1:27:34 PM : (Craig Sears) wrote

Work orders were submitted during that time for the fans and they are utilized to cool off the unit and more over to circulate the air, not to annoy one person. Unit extermination is routinely scheduled for the institution.

5/21/2021 5:19:22 PM : (os01613467) wrote

I reiterate the same statements in previous inquiry NJSP21015278 and recent grievance. Fans were being used by correctional staff to annoy and block out other inmates speaking, and not for their intended purpose. Furthermore the fans are excessively loud exacerbating already existing noise which has caused me to lose sleep on numerous days.

Extermination was not ordered when I requested it on various dates this exacerbated the vermin/insect infestation in my cell.

These incidents occurred while I was on 2 left.

6/2/2021 1:13:16 PM : (Amy Emrich) wrote

Extermination services are here for service multiple times a week to address any concerns for vermin/insects. Additionally, the use of fans will continue to be utilized to assist with circulation of air and to cool off the units.
